

The Courtside Software Solution for Basketball Statistics

Sample Reports

A selection of some of the reports available from doHOOPS.

Not all doHOOPS reports are included here, and many of the reports that are included have a number of options you can set within doHOOPS to create reports showing more (or fewer) stats. "Classic Stats" and "Season and Career Stats" are especially flexible and customizable, with custom stats selection, and the ability to include "extras" such as splitting your stat columns into "Home/Away", or "Starter/Bench".

If you don't see a report you're interested in, email us (mailbox@dohoops.com) to find out if it's currently available in doHOOPS. And if you download doHOOPS to test-drive the software, you'll find demo games already created so that you can immediately start exploring the report options available in doHOOPS.

In doHOOPS version 2, you can customize the report titles of most doHOOPS reports, with a few exceptions such as the Standard Logbook and Quick Logbook reports.

Note: doHOOPS does not currently incorporate any features to save your stats reports as PDF files, but all doHOOPS reports can be saved as HTML files for emailing or uploading to the web.
